BEWARE OF COVID-19 SCAMS

Scammers Want Your Money and Personal Information
Be Ready. Protect Your Family.

Top Tips: What to know and do about scams regarding Covid-19.

1. **Learn how to tell the difference between a real contact tracer and a scammer.** Legitimate tracers need health information, not money or personal financial information.
2. **Don't respond to texts, emails or calls about checks from the government.** Information regarding stimulus checks can be found on the official Federal Trade Commission's website.
3. **Ignore offers for vaccinations and home test kits.** Scammers are selling products to treat or prevent COVID-19 without proof that they work. Most test kits being advertised have not been approved by the FDA, and aren't necessarily accurate.
4. **Hang up on robocalls.** Scammers are using illegal robocalls to pitch everything from low-priced health insurance to work-at-home schemes.
5. **Watch for emails claiming to be from the CDC or WHO.** Use sites like coronavirus.gov and usa.gov/coronavirus to get the latest information. And don't click on links from sources you don't know.
6. **Do your homework when it comes to donations.** Never donate in cash, by gift card, or by wiring money.
