MEMBER CONNECTION

CREATION OF CATHOLIC CREDIT UNION ASSOCIATION ANNOUNCED

Catholic Family Federal Credit Union is a founding member of the Catholic Credit Unions of America, a new collaboration of 11 Catholic credit unions. The CCUA was formed after an organizational meeting May 9-10 in Notre Dame, Indiana.

"For the first time, Catholic credit unions have a mechanism to combine their lending capacities to help finance Catholic projects of nearly any size, in any diocese, nationwide," said Tom Gryp, Notre Dame Federal Credit Union President/CEO.

"CFFCU will be able to help other Catholic credit unions by participating in loans for new parishes, schools, and other non-profit Catholic projects. CCUA will also help enhance each department in our credit union through compliance regulations, marketing and technology," said Michael Taylor, Catholic Family Federal Credit Union President/CEO.

The credit unions that make up CCUA are located in Kansas, Missouri, Indiana, Michigan, Ohio, and New York. The founding group represents \$1.9 billion in combined assets.

LOAN PAYMENTS BY CREDIT OR DEBIT CARD

Make loan payments* with a debit or credit card by phone or in person.

*Convenience fee applies.

1.99% APR CREDIT UNION AUTO FINANCING AT THE DEALERSHIP!

Seven days a week, including holidays, Catholic Family can approve your new or used auto loan while you are at the dealership, and without visiting your credit union. Call the Loan Department for more information.

NEW CARD. EMBEDDED CHIP. EXTRA SECURITY.

Catholic Family Federal Credit Union is committed to your security. Now, we are bringing you a new level of protection by making chip cards available to all members. Europay, MasterCard and VISA (EMV) is a global standard for cards equipped with computer chips to authenticate chip-card transactions.

U.S. card issuers are migrating to this technology to protect consumers and reduce the cost of fraud.

Why the chip matters

- **Added Security** - A chip adds another layer of security to cards when used at a chip card reader. During the chip transaction, the chip produces a single-use code to validate the transaction - further protecting cards from unauthorized use.
- **Wider Acceptance** - Europe, Asia, Canada, Mexico and South America have already embraced chip technology, so your card will be easier to use outside the U.S. Plus, chip technology is becoming the standard in the U.S.
- **At a Chip Card Reader** - As U.S. merchants begin transitioning to chip card readers, you will notice the payment process works a little differently. Your merchant may direct you to insert your chip card until the transaction is complete. Not all chip card readers will look the same, so follow the prompts on screen. If you come across a merchant who has not made the transition yet, you can still swipe your card as you do today.
- **At an ATM** - ATMs are being updated to account for embedded chip cards. During this process, you should use your card as you do today, and follow the prompts on the screen to continue the transaction. A chip-enabled ATM will hold your card for the duration of the transaction, so always take your card when finished.
- **How to Get Your Chip Card** - **All existing Catholic Family member credit cards will transition to the new card upon expiration. The new card that is issued will have the embedded chip.**

If you have questions, please call Catholic Family Federal Credit Union. We're here to serve you, our members.
